## Sky Angel

<u>Type</u>	<u>Warranty</u>	<u>Expected Life</u>
IRIUS Fix	20 Years	25 Years

All warranties are dependent on professional installation by a trained Fall Angel or Bettersafe International installer, to a structure suitable for the installation in an area that is not subject to extreme conditions.

Roofing and other structures to which the Angel Range is fixed should be installed correctly as per the manufacturer's instructions and the Fall Angel Range Fall Protection Systems installed on the areas must be designed and calculated where required to suit the load requirements of the structure and the number of users of the system.

Any and all fixings not supplied by Bettersafe International and found to be incompatible with the Fall Angel systems will render this warranty null and void.
